Projects

CODESYNC

• CodeSync is a web application that serves as a simplified clone of the CodePen editor.
• It provides users with the ability to write and preview HTML, CSS, and JavaScript code in real-time.
• The project features user authentication, including login and signup functionality. The application is built using the React library for the frontend, Nodejs, Express for the backend, and MongoDB as the database.

Technologies Used: React.js, NodeJs, ExpressJs, MongoDB

WEATHER APPLICATION

• The application is built using HTML, CSS, and JavaScript that uses openweathermap API to display current weather conditions for a specified location.
• The application is designed to request the user's permission to access their current location and then display the current weather for that location in a user-friendly format.
• If the user declines to share their location, they can also manually enter a location to view the weather for that area.

Technologies Used: HTML, CSS, Javascript

RAZORPAY CLONE

• The Razorpay clone project created using Tailwind CSS is a web application designed to replicate user interface of Razorpay website.
• This project was created using only the front-end technologies HTML and Tailwind CSS.
• The application is designed to be visually appealing and easy to navigate for users.

Technologies Used: Tailwind, CSS, HTML

Achievements/ Extracurricular Activities

•Actively participating in hackathons and coding competitions to enhance problem-solving and programming skills.
•Working with various NGOs contributing to social causes.
•Achieved the second-highest academic standing in the first year of college.
•Achieved the third prize in the college drama competition.

Skills

C++ | Object Oriented Programming | HTML | CSS | Tailwind | Javascript | React.js

Education

Samrat Ashok Technological Institute, SATI Campus, Vidisha, Madhya Pradesh
B.Tech, Computer Science Engineering (CSE) | 8.7 CGPA
2020 - 2024

St. Joseph's Convent School, Itarsi
Class XII | 87.8%
2019 - 2020

St. Joseph's Convent School, Itarsi
Class X | 90.8%
2017 - 2018

Internship/Training

AFFWORLD TECHNOLOGIES
Software Trainee Intern
January 2024 | Certificate Link

As a Software Trainee Intern, I'm immersed in a dynamic learning environment where assigned tasks serve as a litmus test for my skills. Successful completion opens doors to contributing to real-world company projects. Exciting challenges pave the way for practical skill validation and potential integration into impactful projects within the organization.
